

Ventureprise Launch NSF I-Corps Program

Bridging UNC Charlotte Academic and Entrepreneurship Knowledge

What is the Ventureprise Launch NSF I-Corps Program?

Ventureprise Launch is for UNC Charlotte faculty, students and staff to explore the commercial possibilities of their ideas and research. The program provides University faculty and students with commercialization advice, training and funding to identify potential customers. Upon completion of the program, teams will have gained:

- 1) “Lab to Market” entrepreneurial knowledge and experience
- 2) Up to \$3,000 in NSF funding for prototype development, conference & customer interview travel, and other materials & supplies related to customer identification and research
- 3) Experience in the NSF funding pipeline and additional funding opportunities in excess of \$1 Million

Team Qualifications

- 1) A 2 Person Team including an **Academic Lead** (Faculty Member) and **Entrepreneurial Lead** (Student or Staff Member) with relevant knowledge of the research .
- 2) STEM based research that has produced substantive data. This may include, but not limited to, proposed ventures related to physical sciences, life sciences, software, informatics and energy.

Applications Deadline: September 14th

For more information contact Devin Collins at devin.collins@uncc.edu

www.entrepreneurship.uncc.edu

Ventureprise is UNC Charlotte’s innovation and entrepreneurship center serving the campus and Charlotte region as a center of excellence for evidence based entrepreneurship. Ventureprise works to provide the resources and expertise for university and community based startups to graduate to the next level of business formation, scaling or funding.
